The data in our product information sheets are based on our experience and careful investigations, and correspond to our present state of knowledge. We are, however, not able to examine and influence in detail the varying conditions for usage and materials, and those at premises where products are to be used. For this reason, we can only provide general information on usage. The quality of the work depends on expert assessment of the premises where products are to be used and how they are in fact employed by the user. In the case of doubt, the latter is obliged at all times to test the compatibility of the material to be treated with the Buzil product on an inconspicuous area or to obtain relevant advice on application technology. Liability for incomplete or incorrect data in our product information sheets shall only be assumed in cases of negligence caused by gross negligence or intent; any claims arising from the Product Liability Act shall remain unaffected. All previous product information shall lose its validity through the above listed product information.

## Remarks / Important information

- Do not use on acrylic glass (PMMA).
- Changes or variations in colour of the product do not impact on the quality.
- **Safety:** Test material compatibility on a hidden area before application. For further information, please refer to the MSDS (Material Safety Data Sheet).
- **Storage:** Always keep containers closed. Store at room temperature in the original container.
- **Environmental:** Non-contaminated and emptied packages may be recycled.
