CORRIDOR® MATT S 737

Dispersion, matt

Application and dosage

Preliminaries:

Floor covering that has been stripped, rinsed, and dried.

Coating:

Undiluted

Apply 2-3 coats. Where possible, use a microfibre mop for coating to achieve a uniform, streak-free appearance. Each coat must be left to dry.

Note

Protect from frost.

Before processing, turn off heat sources (underfloor heating, heating, hot supply air).

Avoid direct sunlight.

The more thoroughly the stripping and rinsing of open-pore floor coverings such as linoleum are carried out, the better the properties of the coating are supported.

A single, temporary exposure on the surface without mechanics, to commercially available disinfectants (max. 15 Minutes of continuous stress) is tested and does not cause any damage to the coating surface. Changes or variations in colour of the product do not impact on the quality.

Hazard statements

H317 May cause an allergic skin reaction.

For further safety precautions, please refer to the safety data sheet for Corridor® Matt S 737 at www.buzil.com.

The data in our product information sheets are based on our experience and careful investigations, and correspond to our present state of knowledge. We are, however, not able to examine and influence in detail the varying conditions for usage and materials, and those at premises where products are to be used. For this reason, we can only provide general information on usage. The quality of the work depends on expert assessment of the premises where products are to be used and how they are in fact employed by the user. In the case of doubt, the latter is obliged at all times to test the compatibility of the material to be treated with the Buzil product on an inconspicuous area or to obtain relevant advice on application technology. Liability for incomplete or incorrect data in our product information sheets shall only be assumed in cases of negligence caused by gross negligence or intent; any claims arising from the Product Liability Act shall remain unaffected. All previous product information shall lose its validity through the above listed product information.
